## VICTORIAN PRODUCTION STATISTICS

MONTHLY BULLETIN : NO. 83

OCTOBER, 1957.  
- - - - -

This Bulletin shows, for certain commodities, the monthly factory production in Victoria. Details of Australian production of these items are published in similar form in the Monthly Bulletin of Production Statistics issued by the Head Office of the Bureau in Canberra. Many of these items are shown in greater detail in other publications of the Bureau issued from Canberra.

For the purpose of the accompanying statistics, a "factory" is defined as an establishment in which four or more persons are employed or where power (other than manual) is used in any manufacturing process.

Annual totals for 1938-39, 1948-49 and the last three financial years are shown in conjunction with:-

- (a) totals for the most recent six-monthly and three-monthly periods together with comparative figures for the same periods twelve months earlier; and
- (b) monthly totals for each of the latest fifteen months.

Figures up to 1955-56, inclusive, represent totals derived where possible from annual factory returns collected by the Victorian Government Statist. It should be noted that in the case of some factories annual returns are accepted for a period other than the normal financial year ended June 30th.

From July 1956 onwards, figures are preliminary and subject to revision.

An index of contents appears on page 2.

The scope of the Bulletin will be widened from time to time to include new information as it becomes available for publication.

The following symbols are used in this Bulletin:-

- n.a. Not available.
  - .. Nil or less than half the final digit normally shown.
  - r Figure revised.
- A blank space in a column of figures means that the figure concerned is not yet available.
